Job Designation- Fellow- Cataract Surgery ,Anterior Segment.

Tenure - Compulsory for 24 months / 18 months

Stipend -Rs 60,000 / month (18 month course)

Rs 60,000/month 1 st year , Rs 70,000 /Month 2nd year(24 month course)

Selection process - Based on online interview performance.
(JUNE 30th 2024)

Fellowship Goals- Provide a holistic training in Ophthalmology and make the candidate confident enough to manage common ocular conditions and perform **Cataract** surgeries (MSICS & Phaco) with confidence.

Surgical Training

- Focus will be on enhancing the surgical Skills
- Training in MSICS and Phaco
- Step by step training with monitoring and supervision by the mentors
- Preference will be given to ensure that the fellows get clear concepts regarding surgical steps and train their thinking and analytical process.
- All surgeries will be recorded .
- Surgery reviews and analysis by Video will be regularly done .

- Fellows will have access to perform surgeries on DBCS camps cases.
- Independent Surgery- The number of cases allotted will be gradually increased after judging the candidates skill levels, and experience)
- Number of surgical cases during the tenure-On an average 500+ cases in a 24 months tenure and 350 + cases in the 18 months tenure. (5 cases per week as an average,)
- If the candidate is a quick learner and gains the confidence of the mentors, he or she may do more cases.
- The training will start with SICS and once the candidate gains confidence, transition to Phaco will start.
- If the surgeon is already very well trained in MSICS then the trainee will be doing mainly Phaco cases
- Routine assessment of the surgical skills will be done.
- Log book is essential to be maintained.
- Diagnosis & Management of intra operative and post operative complications will be taught.
- Hands on Training for Pterygium Surgery will also be provided .
- Glaucoma surgery Orientation.
- Training regarding Sterilisation & OT asepsis & protocols will be given
